## TYPICAL PW-54E INSTALLATION

- 1) Quikserv windows must be installed level and square to work properly.
- 2) Anchor through each side jamb at two places approx. 5" at top and bottom of each jamb.(See Fig. 1)
- 3) 115V / 15 Amp. Dedicated circuit required.
- 4) Recommended height from floor to service opening to be 36". (Check all local and city codes)
- 5) Silicone all exterior and interior joints.
- 6) All other type of anchoring to be approved by certified engineer.
- 7) If not using sub-frame, use caution when drilling thru each jamb.
