

Interior View

Installation Notes

1. Quikserv windows must be installed level and square to work properly.
2. Anchor through each side jamb at two places approx. 5" at top and bottom of each jamb. (See Figure)
3. Recommended height from floor to the bottom of the window unit service opening is to be 36" above finish floor. (Check all local and city codes)
4. Silicone all external and internal joints.
5. All other type of anchoring to be approved by certified engineer.
